28 HECTARES IN LOBOS

La Taba is a comfortable country house on a 69 acres lot, located 78 miles west of the city of Buenos Aires.

The area is very close to the heart of the Argentinean polo community where many polo clubs, country clubs and privately owned polo fields can be found.

The main house, built in 2006, is a spacious and impressive home, appointed to the highest of standards and kept in the style of the Argentinean Pampas.

On the ground floor, the tile-roofed main house includes, amongst other, a large and cozy living room with a chimney, a study, a playroom and two en suite bedrooms. A reading room separates the upper floor in two areas, each one of them consisting of three en suite bedrooms.

The property also includes a swimming pool, a 5-year old tree grove, and a secondary two-storey accommodation for domestic service, which comprises 3 bedrooms, a kitchen, the laundry and one bathroom.

A remarkable feature of La Taba is its two polo fields, one of them having the official size field. This property is therefore suitable for various uses, and it would be ideal for business projects related to polo. Other facilities in this regard are the stables with 3 boxes and saddle house, a staff room, a concrete storehouse with corrugated iron roof, tethering post under the shade, electric light and gas bottle for bathrooms and kitchen.

Being so close to the center of the polo community ensures La Tapa the convenient access to all kinds of resources such as the very best horse breeders, trainers, vets and polo players Argentina can offer.
