**ESTANCIA POZO DE CORREA** This ranch holds 22 hectares from which 11 are landscaped. Located in "Agua de las Piedras", department of Totoral, Córdoba Province, 6 km from "Estancia Jesuítica de Santa Catalina", from which it used to be part of. This ranch's construction was concluded in 1888. It is located within an extremely productive area, with main emphasis on Jesús María, Ascochinga, and Estancia La Paz.

The main house has had several improvements, for example the construction of two additional bathrooms, which have improved its practicality. Four sizable galleries -each of which connects to their respective dormitories- surround it. It has a great living-dining room.

Close to the main house we find another ranch house that was formerly an indoor swimming pool. It has a bedroom with its dressing room, a bathroom, a small kitchen, and a living-dining room. To its side stands a windmill.

On the other hand, it has a sector with seven rooms, four bathrooms, a lounge room and an internal patio. In this sector we also find the main kitchen, the maid's quarters, and a small warehouse.

We can also find another house at the premises: It consists of one bedroom, a bathroom, a kitchen, a living-dining room, and a mezzanine.

In a nearby sector we find the housekeeper's house and two tool sheds/warehouses. It also has a gated swimming pool and an open quincho (place for having barbecues and entertaining).

The Ranch has water supplies from two different wells with a volume adjusted to its necessities. The water is stored in an underground cistern and in an Australian water tank. Besides this, it also counts with a dam that is fed by a mountain irrigation canal.

These are the coordinates to the "Estancia Pozo de Correa":

**Characteristics:**

- 22 hectares (54 acres)
- 11 landscaped hectares (27 acres)
- Age: Year 1888
